PURE **ZOOM-ZOOM** IS HERE

IMAGINATION DRIVES US

1.5L Roadster GT in Soul Red Metallic.

EXCITE **EVERY** SENSE

The All-New Mazda MX-5 is Zoom-Zoom in its purest form, with driver and car coming together to embody the Japanese philosophy known as 'Jinba Ittai', meaning 'horse and rider as one'. It's an unadulterated driving experience, ready to captivate with the all-sensory thrill only a roadster can deliver. To drive one is to discover the unique sense of freedom experienced when open roads meet open air.

The new-generation soft-top features innovative SKYACTIV TECHNOLOGY for agile handling and breathtaking reflexes, and stylish 'KODO - Soul of Motion' design conveying power ready to be unleashed. The interior has been designed to feel like an extension of the driver, with an uncluttered layout to keep your world in control. Drawing on its 26-year heritage as the world's most-loved sports car, the iconic MX-5 is back, and more exhilarating than ever.

CAR AND DRIVER BECOME ONE

In developing the interior, we aimed to blend the boundaries between the inside and outside of the car, inducing a greater sense of connection to the road and the skies, and a feeling of oneness between car and driver. Understated, quality finishes feature throughout the passenger cabin, with all controls intuitively positioned to surround the driver in symmetry for optimal driving position and comfort.

Multi-function commander The new-generation multi-function commander is designed to be intuitive and easy to use. Developed with safety as a priority, it allows the driver to concentrate purely on driving.

Audio In addition to the standard-equipment six-speaker configuration, the All-New Mazda MX-5 is also available with a premium nine-speaker Bose® sound system. Both configurations feature 45mm driver's side headrest speakers, with the Bose® audio system adding additional headrest speakers for the passenger and a subwoofer.

MZD Connect (Standard on Roadster GT, option for Roadster¹). The new MX-5 Roadster GT is equipped with MZD Connect, a customisable on-board connectivity system that makes it safer and easier to access your online world on the road. Link your smartphone² via Bluetooth® to access your music, contacts and social networks from a single screen. Program it with your favourite information for an even more streamlined experience. Up-to-date maps mean navigation is never an issue, so you can relax and enjoy the drive.

UNLEASH **PURE** PERFORMANCE

SKYACTIV TECHNOLOGY is the innovation behind MX-5's exhilarating, yet economical performance. The breakthrough technology has been applied to every element of the vehicle, unlocking better fuel economy, a lighter body and an advanced driving experience. Available in a 1.5L engine from launch, with a 2.0L version to be released late 2015.

DRIVE WITH CONFIDENCE AND PEACE OF MIND Development of the MX-5 focused on creating an exhilarating drive, while also maximising safety. The high-strength SKYACTIV-BODY is engineered to minimise harm in the event of a collision. Front airbags for both passengers come as standard, and side-airbags with head-protecting cells safeguard against impact even with the top down. The development of the SKYACTIV-CHASSIS was focused on achieving superior handling and stability, with faithful responses in every driving situation.
